

# Our Current Healthcare "System"

IT'S A MESS!

As you can see, our current healthcare "system" is **extremely inefficient!** It wastes money and puts **profits over patients.** **Plus, it doesn't even work!** Millions of Americans don't have insurance and millions more can't afford healthcare costs.

Turn the page to see something much better: **single payer.**

# Single Payer Universal Healthcare

*it's just better!*

## How does single payer healthcare work?

- 1** Businesses and residents pay affordable premiums to the government.
- 2** The government funds a public health insurance plan which reimburses doctors & hospitals for care provided.
- 3** Everyone is covered. **Period.**  
**It's that simple.**

3 out of 10

New Yorkers are either **uninsured** or **underinsured**, meaning they struggle to pay premiums & deductibles.

With single payer, **all New Yorkers will be covered**. No one will suffer because they cannot afford their medical bills.

98%

of households in NY State will **pay less for healthcare** under a single payer universal healthcare system than they do now because they will have **no deductibles or copayments**.

Let's clean up the *MESS* of a healthcare "system" that we have.

**The New York Health Act** is a single payer bill for NY State that will bring affordable healthcare to all New Yorkers. Urge your representatives to sign on.
